

## **Workshop on e-mobility and installation of charging stations for electric vehicles. Serres, September 23rd**

Are you interested in e-mobility? Do you want to know more about how to install a charging station for electric vehicles from technical, legal and financial point of view?

The Hellenic Institute of Transport from Center for Research and Technology Hellas (HIT/ CERTH) invites you in the workshop dedicated on building a sustainable future for local businesses and the community through e-mobility, which will be held on September 23, 2022 in Serres, at 13.30 at the SEREXPO Business Center "CHRISTOS MEGLAS". The event is part of the parallel events of the SEREXPO 2022 business exhibition.

The aim of the workshop is the development of a satisfactory electric vehicle charging network in the region of Macedonia and Thrace and the interconnection of this network with a similar network in Bulgaria, in order to ensure that electric vehicle users will be satisfied and safe. In addition, the workshop will provide information on the legislative framework for the installation of chargers in Small and Medium-sized Enterprises (SMEs), the financing possibilities and the benefits and prospects expected in the near future.

**The opening of the event will be held by the Minister of Infrastructure and Transport, Mr. Kostas Ah. Karamanlis.**

The workshop is organized in the framework of the project "Electric Vehicles and Charging Crossborders Infrastructure" (E.VE. CR.I.) with contract number No.B6.3a.01/13.04.2021 and is under the auspices of the Hellenic Institute of Electric Vehicles (EL.IN.I.O.). The co-organizer of the workshop is the Civil Non-Profit Company "Institute of Sustainability and Safety" with the distinctive title "Zitima Zois" (Life Issue).

The project E.VE.CR.I "Electric Vehicles and Cross-Border Charging Infrastructure" is implemented between 13/04/2021 – 12/04/2023 by the "Alliance of the Producers of Ecological Energy" (SPEE-BG), HIT/CERTH-GR and the "Bulgarian Electric Vehicles Association" (BAEPS-BG). It is co-financed by the European Regional Development Fund (ERDF) and national resources of the countries participating in the Interreg V-A Cooperation Programme "Greece-Bulgaria 2014-2020".

Attached you will find the program and the invitation. For more information, you may contact Mr. Diogenis Dimitrakopoulos, journalist and representative of "Life Issue" at 6947 769 962.
